

Stay Up-to-Date on Ag Information

Did you know that several different departments in the UK College of Ag put out weekly or monthly newsletters? This is often one of the best ways to stay up-to-date on Kentucky-specific ag information. Some of these newsletters are found online in a blog format, but you can also directly subscribe to many of these resources to have new editions delivered to your email. Click the link below or scan the QR code with your smartphone camera to visit the newsletter site.

Some of the ones you might consider include:
